Dr. D. Bouvier Heads Curling Club

WI Collects $197 In Fund Canvass

LAC LA BICHE — The regular monthly meeting of the Women's Institute was held at the home of Mrs. M. A. Tarrabain with Mrs. L. J. Badry, co-hostess. Mrs. Marshall Hamar chaired the meeting.

Mrs. . Cunningham, convener of the Cancer canvass gave her report on the recent successful canvass. $197.63, the largest sum ever collected for this project, will be turned over to the Cancer Society. The ladies are to be congratulated for their excellent work.

Mrs. S. Hamar, standing convener for home economics, gave her report. The library report showed that more books are on order for the library.

The May meeting will be held at the home of Mrs. H. Marchildon, May 15.

Mrs. Tarrabain and Mrs. Badry served a bountiful lunch to conclude the enjoyable evening.

First Trip "Out" For Yukon Family

LAC LA BICHE — Mr. and Mrs. John Burdek and four children of Dawson City, Yukon, started back to their home in the north on Saturday of last week after spending a month visiting relatives here.

John, who went to the Yukon 14 years ago, is employed by the department of public works as a mechanic. This is his first trip home and the first time outside for his wife and four children. Mrs. Burdek was born and raised at Dawson City, as were the four children.

The Burdek's say they enjoy living in the north. Dawson City is a town of 800 population and, although the temperature dips to 72 degrees below in the winter, the summers are of four months with 24 hours of sunlight. They grow all the common vegetables in their gardens except such things as tomatoes and cucumbers.

The children have excellent modern schools. The family motored down from the north.

Finnish Society Presents Program

RICH LAKE — The Finnish Society of Edmonton presented a program with a free-act play at Thorhild Legion Hall recently.

Those who attended from Rich Lake included Calvin Kumpula, John Ritala, George and Ray Waine, Martha Sivard, Sophie Waine, Mrs. Kari and J. Tikkanen.

"By Golly, that IS nice looking tile you got in the Alberta Country Life Classified Ads."

Back in Washington after a three-week goodwill tour covering India and Pakistan, Mrs. Jacqueline Kennedy looks anything but tired from her travels. "Most fascinating experience imaginable," she described the trip.

Blazing Overalls Cause $25,000 Damage To Triway Service Garage

LAC LA BICHE — Fire, believed to have started from a spark from a welding torch igniting a pair of greasy overalls, caused some $25,000 damage to the building and equipment of Triway Service Garage Monday evening of last week.

NEAR WINNER in ice fishing contest at Venice Lake, near Lac la Biche, was Henry Quaghabeur, 9, a grade three student at the Thorhild school. His 11 lb., 7 oz. pike (jackfish) was just 7 ounces off of taking first prize.

The fire was first noticed about 6:30 p.m. by Bill White Jr., an employee at the garage. A pair of coveralls that had been worn by one of the mechanics that day and was hanging at the back of the garage, just under a shelf of new tires were noticed to be on fire. The water hose was turned on them but to no avail and the alarm was quickly turned in. Within three minutes the local fire brigade was at the scene of the fire and within eight or 10 minutes the fire was under control. Most of the damage was done to the costly electrical equipment in the garage and was covered by insurance.

The front end was not damaged and business is being carried on as usual. Business manager Guy Bissette reports that the complete business will be back in operation in about two weeks.

DREAMLAND THEATRE
BOYLE Alberta

Thurs. & Fri., April 26-27—
"Man Without a Star"
Technicolor - Western
Starring Kirk Douglas and Jeanne Craine

Mrs. Esdras Cadieux Shows Improvement

LAC LA BICHE — Mrs. Esdras Cadieux, who has been seriously ill in St. Catherine's Hospital for several weeks, is now improving.

Members of her family from a distance, who have been home to visit their mother, include Mrs. Lucy Gervais of New Westminster; Yvonne and her husband Oluf Slatten of Golden, B.C.; Mrs. Lauretta Shaub, Plamondon, who has recently undergone surgery, Henry, the eldest son, arrived April 18 from Yellowknife. He plans to spend a month here visiting his family and friends.

If you get rid of envy you will be surprised to see how many nice people there are in your community.

Committee Reports Rink Project Completed According To Plans

The Lac la Biche Curling Club recently held its annual banquet and general meeting in the Memorial Hall. Approximately 80 curlers and wives were in attendance. After enjoying a meal prepared by the Ukrainian Greek Orthodox Ladies, President Senetza called the general meeting to order. Secretary Woynarowich read last year's general meeting minutes, followed by Treasurer Shewchuk, presenting the treasurer's report.

The following executive was nominated for the 1962-63 season: President, Dr. D. Bouvier; first vice-president, M. Steffin; second vice-president, L. Shewchuk; treasurer Paul Bouvier; secretary, E. Woynarowich; counter, D. Skakun; finance, M. Tarrabain; ice, A. Cadieux; bonspiel and prizes, Mike Hamar, J. Olstad; social and entertainment, J. Homeniuk, E. G. Dobson; membership, J. T. Mackriss; draw, F. W. McMillan.

The treasurer's report indicated that the Curling Club operated successfully for the current year. A better than $500 balance in the bank was shown after $500, plus interest, was paid on loan along with $300 on rocks, which represents half payment. It was noted that additional revenue of $639.45 was realized from the operation of the booth at the Curling Club, handled capably by Convener D. Skakun and committee.

Dr. Bouvier gave a report for the building and finance committee. In his report he indicated that the building project had been completed according to plans. The cost of enlarging the waiting room and curling rink was $7,500. A town grant of $2,000 was applied to the project, along with $1,500 in the Curling Club fund. A further $3,500 was borrowed from the bank, which was made possible through 12 backers. This left the rink within $500 of being completed. A campaign headed by T. Mackriss was carried out to collect $500 from current fees. This was collected and the rink was completed.

Curling enthusiasm was high during the current season as indicated by the 11 bonspiels that took place.

J. Zaluzny was presented with a gift and appreciation extended to him for his fine caretaking performed through the season.

Presentations were made to the winners in three events of the final bonspiel of the season, this being the local mixed. Following are the winners in events:

Grand Challenge: 1, trophies, A. Baglot, J. McCormick, J. Hackman, W. Sachko; 2, trophies, J. Konowalchuk, J. Zaluzny, R. Tesolin, H. Stepanowich; 3, travel alarms, J. Olstad, E. Torgunrud, J. Lemay, R. Tardif; 4, bedspreads, P. Gaberal, Dr. W. Cadzow, J. Wowk and A. Felewych.

Citizens: 1, trophies, J. McIntosh, E. G. Dobson, A. Branson, C. Hayward; 2, trophies, F. McMillan, W. Tichonuk, A. Abougoush, N. Bracken; 3, ornaments, G. Lee, M. Tesolin, B. Joncas, E. Pruden; 4, plaques, J. Karasinski, H. Lobay, B. Mohyluk, and T. Trefanenko.

Consolation: 1, mugs, P. Bouvier, R. Scheltens, M. Maskalyk, C. Munawych; 2, cakes, D. Gatzke, E. Tkachuk, L. Hamilton, Y. Richard; 3, ash trays, R. Pawlowich, D. Skakun, H. Marchildon, B. Rizzoli; 4, crib boards, J. Homeniuk, A. Cadieux, M. Cadzow and Miss Sorochan.

The evening was ended by a showing of films by F. McMillan.

Lac la Biche Mission

A bingo was held at the Mission School recently in honor of Rev. Fr. Levert who has spent nine years here. He will now reside at Saddle Lake. He will be replaced here by Rev. Fr. M. Picotte.

Camille Vereicghe from Edmonton visited at the home of his aunt, Mrs. L. Bourget, during his holidays.

Elmer Ladouceur has gone to work at Yellowknife for the summer

All the boys from the Mission left for their Easter holidays.

E. Richard from Edmonton came with his family to visit his sister Mrs. Louis Tardif.

Mrs. Frank Couteney and her two daughters were Easter Sunday guests at the home of Mr. and Mrs. L. Bourget.

Mr. McFerland and family from Edmonton visited at the Fabien Ladouceur home.

Household Pets Die At Lac la Biche

LAC LA BICHE—Recently several house dogs have died mysteriously, much to the sorrow of their owners.

A couple of the pets appear to have died of poisoning and one, upon examination by government authorities, was pronounced to have died from strangulation.

There seems to be no justifiable reason for these atrocities, but children are heartbroken over the loss of their pets.

Grassland

News was received recently of the death of Joe Schendzielorz of Evansburg. Mr. Schendzielorz farmed in this district for a number of years, moving here from his native Germany in the early 30's. Besides farming, he was well-known as a carpenter, cabinet-maker, painter and brick-layer. A son, Richard, is farming a few miles south of town.

Mrs. I. S. Semeniuk extends thanks to the local ladies for the baby shower recently held at her home.

Nick Derko has purchased a new tank truck for local deliveries.

Francis Garnier returned home for the Easter holidays from Slave Lake where he has been working.

Mr. and Mrs. Trued are visiting Mrs. Trued's relatives in Montana. Mr. Trued is principal at Grassland School.

Mr. and Mrs. Leshchyshyn and family are spending the holiday season in Edmonton.

Miss Scott, teacher at Grassland School is on leave of absence for one month.

Mr. and Mrs. Mellott and Mr. and Mrs. Corse left to attend the hockey game in Edmonton.

Mrs. Postoluk is visiting her friend Mrs. Nykolyn in the city.

Mrs. Romanyshyn has also been visiting friends in Edmonton.

Mr. and Mrs. Chodan are visiting relatives in Thorhild.

The Nypiuk children of Edmonton are visiting their grandparents, Mr. and Mrs. Kopin.

Barbara Walker is visiting friends at Thorhild.

Helina

Mr. and Mrs. Eli Suhan and Dale of Golden, B.C., visited at the home of Mr. and Mrs. John Suhan. Richard Onciul, who came with them from Golden, B.C. also visited in the district.

Mr. and Mrs. Harry Huser of Edmonton were weekend guests at the home of Mr. and Mrs. Alf Olsen.

Visiting at the home of Mr. and Mrs. Dave Onciul was Mary Onciul of Edmonton.

Mrs. R. Tricker of Fort Saskatchewan renewed acquaintances here over the holidays.

Ellscott

Mr. and Mrs. Albert Oleshko of Edmonton recently enjoyed a weekend visit with Mrs. B. Malmedal and Jergen.

Miss Frances Pelsma of Edmonton was a recent weekend visitor at the home of her parents, Mr. and Mrs. P. Pelsma.

Mr. and Mrs. Harvey Seim recently motored down to Dawson Creek to attend the wedding of Mr. and Mrs. Knut Overnes.

An enjoyable and well-attended Smorgasbord Supper was held in Ellscott Hall, Saturday evening, April 14. Bingo, following the supper, completed the evening.

People who borrow money to get themselves out of a rut usually end up in the hole.

THE DIFFERENCE

Teenager—Grandma, how are the movies different than they used to be?

Grandma— The Director doesn't say cut as soon as he used to.

Theodore Roosevelt was the first American hero to have ticker tape dumped on him as he rode in a parade.

Athabasca School Committee Elects Ed Parr As Chairman

Ed. Parr was elected as chairman and George Weldon as deputy chairman of the Athabasca County School committee at that group's recent meeting. Sub-committee appointments were: finance committee—R. E. Hall as chairman; personnel committee, to work on the organization of schools, selection placement and recruiting of teachers—Stan Zayezierski chairman, Ed. Loxam, Ed. Parr.

Teacher salary negotiating committee: R. E. Hall, George Weldon, Ed Parr, Ed Loxam, A. Aloisio.

Property management Val Breckenridge, W. P. LaFrance, Jack Davidiuk.

Building committee Ed Parr, Ed Loxam, Stan Zayezierski, L. R. Duplessis, with power to add to their number.

Conveyance committee Mike Krajacic, Joe Shimonichek, George Weldon, Ed Parr.

Disciplinary committee the chairman of the school committee, the superintendent and the member from the area concerned.

Other sub-committees will be appointed as the need arises. The meeting was relatively short, as superintendent M. G. Gault was absent,, and his report, and the discussions arising therefrom, were not heard.

The time of the meetings was set as the second Tuesday of each month at 10 a.m.

The meeting was scheduled to continue on Thursday, April 19, at which time Mr. Gault would be present.

A new pamphlet "Co-operatives in Canada" is being published by the Canada Department of Agriculture and will be off the press later this month. Free copies of this two-color, illustrated, 32-page booklet can be obtained from the Queen's Printer, Ottawa.

Plamondon Bay

Mr. and Mrs. M. Iwaasa, B. Stuart and Charles Stratton spent the Easter holidays at the homes of Mr. and Mrs. Alex Stratton and Mr. and Mrs. Paul Belanger.

Miss Hazel Hrynyk of Edmonton spent the Easter weekend with her parents.

Mrs. Harold Hrynyk and Mrs. Eugene Plamondon are spending a few days in Waterways with Mr. and Mrs. Andy Gaudet.

Dolphus Powder has gone back to Gunnar Mines where he is employed during the summer months.

Mrs. Roderick Frederick had her sister from Redwater visiting her over the Easter weekend.

Mr. and Mrs. Edgar Boucher are living in Lac la Biche while he is employed in the construction of the new High School.

Ladies Collect $388 For Fund

LAC LA BICHE — The Ladies of St. Catherine conducted a successful canvass for the Red Cross with a total of $388.12.

They wish to extend their sincere thanks to all the ladies who assisted with the canvass in any way and also wish to thank the public for their generous contributions.

We have a strange and sinking feeling; this week was some-kind-of-week but we forgot to observe it.

Amber Valley

Ronnie Mapp, while playing at school, had a small bone broken in his ankle. He spent two days in the hospital.

Mrs. Turner came for her baby and left Saturday of last week for Calgary.

Because of so much water on their roads, Patsy Freeman and Yvonne Bowen spent two nights with Mrs. Ken Edwards in order not to miss school.

Mr. and Mrs. J. D. Edwards from Edmonton are visiting in the community again.

Myrna and Winifred Bowen, Agnes, David and Glenora Brown, Lonnie Sneed and Gerald Whittaker were all home over the weekend.

Benrice Ramey spent two days at the home of O. Bowen.

Twin calves were born on the Bert Carothers farm.

Mr. and Mrs. K. Patterson from Seattle, Wash., motored to visit the latter's people. They had no chance to see her brother and his family due to too much wather. The creek is over its banks and her brother lives on the other side of the water.

Not every man who goes to church considers himself a saint.

Veronica Lake, now 43, movie star whose peek-a-boo hair style made her a favorite pin-up for thousands of GIs in World War II, was discovered working for meals and tips in a bar and restaurant of a modest, women's hotel on Manhattan's East Side. Since then, offers have been pouring in for her to return to the entertainment world, but so far she has refused all of them. She is shown in 1941 (left) and in 1959.

Holowaty Captured In Texas After Seven Month Search

Roy E. Holowaty (alias Roy E. Holland), formerly of Valleyview, was captured by police in Dallas, Texas, April 15. He escaped last October from the Saskatchewan penitentiary at Prince Albert with Donald E. Kolot, who was apprehended along with Holowaty. The men were both on the RCMP's most-wanted list.

Police say they will not be returned to Canada until they have been tried for offences allegedly committed in the United States.

The men told of being picked up twice previously but talking their way to freedom, police here said.

They told of being stopped by police once in Canada — they didn't say where — and once in San Francisco. On both occasions they convinced the officers they were clean, police reported.

Police said they had committed burglaries, thefts and forgeries across most of the United States and had been in every state except Alaska and Hawaii.

In their two cars, police found three bottles of nitroglycerin, tools used by burglars and safe crackers, and $1,586 in currency and silver believed stolen in a safe burglary in Bossier City, La. They were equipped with walkie-talkie radios which they claimed they bought in New York. They drove two stolen cars.

One car was parked on a downtown lot. The proprietor thought the car might be stolen and called police, who waited until the men came to claim it.

Holowaty and Kolot made a spectacular escape Oct. 12, 1961, from the Prince Albert penitentiary by placing dummies in their prison bunks to deceive guards at a regular 11 p.m. check.

AIDED BY FOG

They used water pipe stolen from a prison construction project to scale a 30-foot wall and got away during a heavy fog in the area while the temperature hung at zero.

They were serving 10-year terms and concurrent five-year terms.

The pair were convicted in May, 1961, of conspiracy to rob. They were captured following a gun-battle with police at a farm home in the Stony Plain area, 25 miles west of Edmonton. They were given 10 years each on that charge.

They were given concurrent five-year terms in connection with a $17,000 robbery at the Alberta Government Highways Building in Edmonton.

Building Permit Turned Down By Grande Prairie Planners

The Planning Committee of the County of Grande Prairie met recently to consider an application from Walter Duesel for building permit on Pt. N.E. 23-71-7-5.

It was decided that no permit for a new building will be issued until such time as satisfactory arrangements are made with the health authorities and Mr. Stierle resanitary sewage disposal systems.

Chairman J. Stephenson, Councillors Allen Drysdale, Val Hennig, J. Dorscheid, A. C. Sorken and County Chairman G. R. Johnson were present at this meeting.

The minutes of the planning meeting of March 5, 1962 were read and adopted as read.

SO SORRY

Minister: "Ah, good morning Mrs. Brown. I see you are taking a tramp into the country."

Mrs. Brown: "A tramp indeed! I'd have you know this is my husband."

Last Year's Fire Protection System Adopted By Council

It was decided at a recent meeting of the council of the County of Athabasca that in regard to fire protection, the same procedure will be followed as was used last year with the Provincial Fire Wardens at Lac la Biche and Slave Lake.

Ross, Touche, Bailey and Smart were re-appointed auditors for 1962, and the accounts were considered.

Land was sold to W. A. Hagen, W. Robinson, W. Royko and NE 16-66-21 was leased to Ben Wirschke on a one-third crop basis. Permit was granted Pete Zachoda for a grazing lease on the NE 20-64-24, a permit to cut logs to C. Workman on the NE 21-65-22 and a permit for posts to W. C. Speers on the SW 10-64-24.

Councillor Davidiuk, Chairman Loxam and the shop foreman were appointed to see if they can locate a good low-boy and also some fire-fighting equipment for the Hamlet of Rochester.

The representative of Town and Rural Planning, who had been expected for two meetings, was still unable to attend, and will be expected next spring.

There was an almost steady stream of delegations, many requesting work on their roads, some seeking seed grain loans and a number of salesmen.

The road complaints will be investigated, and reported upon at a subsequent meeting. The seed grain loans were discussed, and the salesmen were told nothing was being purchased until after the budget is drawn up.

Instructions were received from the Bridge Branch in regard to the installation of large culverts. They also forwarded a diagram in regard to placement and trimming to the approach fills to bridges.

Several applications were received in regard to machine rentals, but the council was not interested.

The resignation was received from M. Chamzuk as motor patrol operator and a number of applications were read, which were referred to the shop foreman for an opinion.

Council was informed that the Winter Works program had been extended to May 31.

A number of welfare cases were dealt with, and a letter was received from former councillor, Dan Lechky, thanking the council and staff for their help and co-operation during his three years in office.

LA Organizes Platter Party For Juniors

BOYLE — A suggestion at the April meeting of the Ladies' Auxiliary to the Legion led to the organizing of a Junior Platter Party for boys and girls between the ages of 10 and 14. These parties will be open to anyone interested and will be chaperoned by three Auxiliary members. The first party will be on May 12, in the Legion Hall, commencing at 8:00 p.m. If a promising number is in attendance and interested, these will continue every two weeks.

Mrs. Jack Cordingly again made a plea for Nabob coupons, urging all ladies to look through their cupboard drawers and accumulate all unwanted coupons. She finds that the group is considerably short in order that it may obtain the proposed coffee urn.

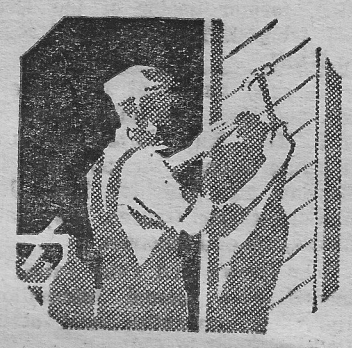
Lunch was served after the adjournment of the meeting.

Don't throw that one leftover waffle out . . . freeze it! Next time you want a quick breakfast, pop the frozen waffle into the toaster adjusted to the "light" setting, let it come up twice and presto, a waffle as warm and crisp as if it were freshly baked.

LADIES WANTED

Make up to $26.00 a week doing simple home sewing in your spare time.

Write: Bunnys, Box 7010, Adelaide Post Office, Toronto, Ontario.



Planning on any building or renovating around your house?

Be sure you take advantage of the wonderful buys on Painting and Hardware Supplies being offered by H. Lobay.

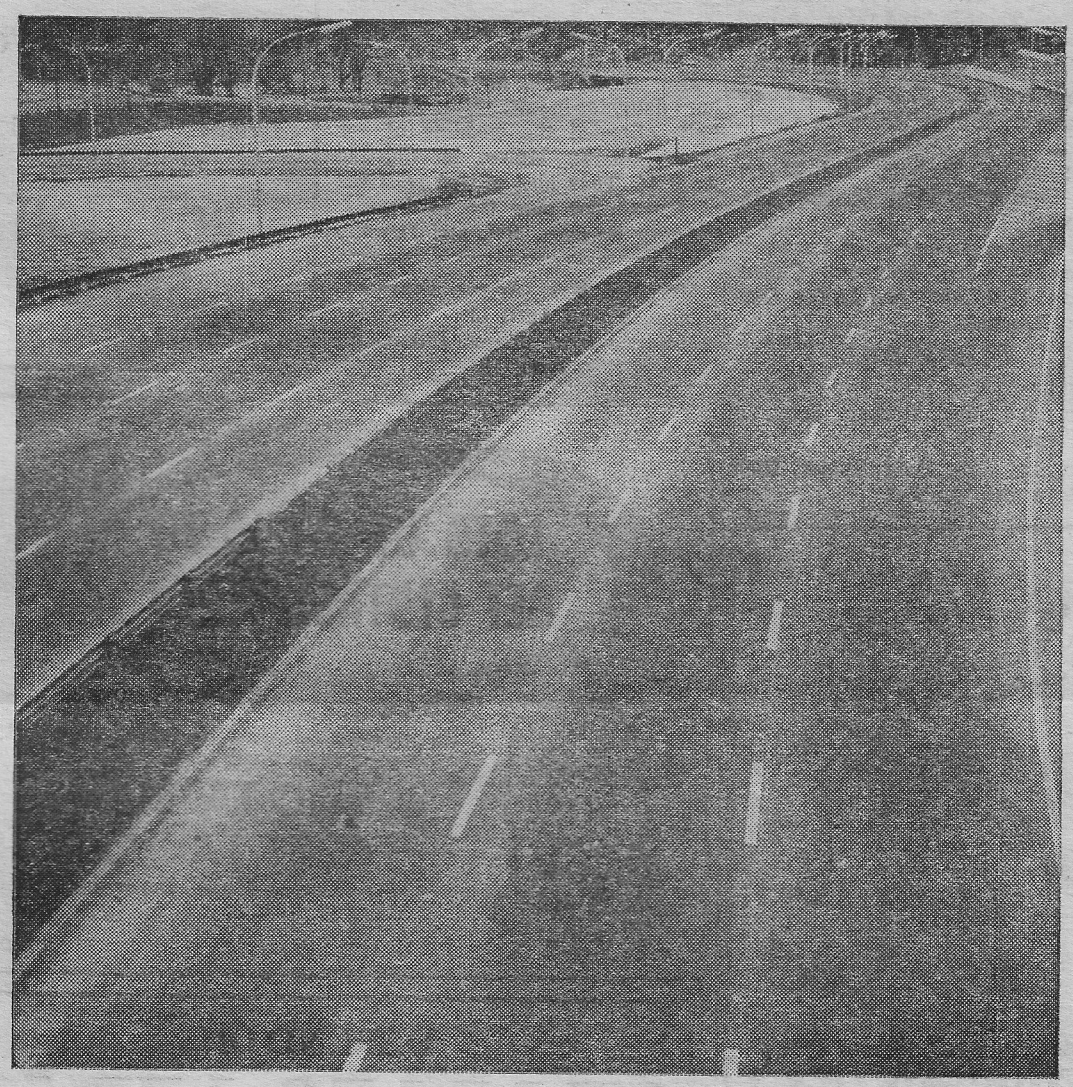
NORTHLAND UTILITIES



Highways without traffic

Far fetched? Not really. Without the protection of insurance, today's crowded highways would be virtually empty — if, indeed, they had been built in the first place.

Without automobile insurance, for instance, how many of today's 6,000,000 Canadian drivers would risk the liability claims which a single accident might bring? Without other types of insurance, who would dare gamble many millions of dollars to build cars in the first place? If the cars were built, how many dealers could dare risk having possibly hundreds of thousands of dollars worth of vehicles in his care without insurance protection?

Last year, automobile insurance companies in Canada paid out more than a half million dollars a day in claims — $190,000,000 in the year. Without insurance, the motoring public would be faced with the impossible financial risk of out-of-pocket payments of this mammoth accident bill. In many ways, insurance makes our present way of life possible.

CRADLE ROLL

Born to:

Mr. and Mrs. Herbert Scott, a girl, April 8;

Mr. and Mrs. Hans Kohler, Rich Lake, a girl, April 8;

Mr. and Mrs. Angelo Giacobbo, Venice, a boy, April 13;

Mr. and Mrs. Roger Dakin, Atmore, a boy, April 19.

Lac la Biche

Mr. and Mrs. Nick Bobocel and W. C. McFarland motored to Moose gelical Free Church, and Miss Isa-Jaw for the wedding of Mr. Gillman Moe, former pastor of the Evan-bel Johnson. The Moe's will reside in Banff.

Weekend guests at the home of Mr. and Mrs. Otto Aabak were Mr. and Mrs. Nick Drebninky and daughter Brenda, Mr. and Mrs. Bill Hayday and daughter Kim, John McCormick and fiancee, Miss Kathy Moose, all of Edmonton.

John Wowk and Otto Aabak attended the annual International Harvester convention held at the Palliser Hotel in Calgary.

Mike Hamar flew to Seattle to attend the opening of the World's Fair, April 21.

Miss V. Stan, public health nurse, motored to Regina for the Easter holidays.

Rita Marchildon was guest of honor April 13 at a party held at her home to celebrate her 16th birthday. Some 28 young people enjoyed an evening of games and dancing. Rita was presented with a gift of luggage.

Mrs. M. A. Lett, accompanied by her daughter-in-law, Mrs. Howard Lett, attended the wedding of her niece, Donna Miller, in Calgary April 14. They also visited relatives at Drumheller over the weekend.

Audry Bronson, RN, and Dorothy Rhodes, RN, public health nurses with the Athabasca health unit, visited at their homes over the Easter weekend, before going on to Banff for the public health nurses' conference, April 26 and 27.

Angeline Coutney left Edmonton April 25 by jet airliner for Trenton, Ont., to operate a beauty salon.

Rita and Hugh Maccagno of Edmonton spent the Easter weekend at their home here.

Albert Langevin, who has been stationed at Norman Wells with the DOT for the past 20 months, is spending the Easter holidays with his parents, Mr. and Mrs. Rene Langevin. Seline Langevin of Edmonton was also home for the weekend.

Mr. and Mrs. F. D. Creighton attended the marriage of their son Wesley to Miss Shirley Aspin of Berwyn at First Baptist Church, Peace River, April 14.

Victor Michetti, who is working with the Canadian Imperial Bank of Commerce at Canwood, Sask., recently spent three weeks holidays with his parents, Mr. and Mrs. R. Michetti.

Helen Mawson celebrated her 10th birthday recently by entertaining several of her little friends at a party at her home.

Louise Badry, who is employed in Edmonton, spent the Easter holidays at her home here.

Avenir

Word has been received that Mr. and Mrs. Gabe Plamondon and family and Ernest Plamondon arrived in Fort Smith safely. Ernest is working there.

Albertine Plamondon has taken lessons in typing lately and will soon leave for Fort Smith where she will be employed as secretary in an office.

Mr. and Mrs. John Johnson and family and son Mr. and Mrs. Arnold Johnson and their family are now neighbors of Elmer Borgen. They moved during the Easter holidays from Olds.

Mr. and Mrs. George Richard and family of Fort Saskatchewan were recent visitors, driving a new 1962 Chevrolet.

Aurel and Daniel Plamondon made a recent trip to Wandering River where Aurel purchased a little pony.

Ben Germain is employed by Phil Johnson, working on a sawmill.

The Homemaker

District Home Economist, Westlock
By Bertha M. McCutcheon

Examine present clothes for items that can be handed on to younger children, or renewed by letting down, replacing elastic or applying patches to elbows and knees.

List items you'll have to buy; watch magazines and newspapers for improvements in children's wear. Avoid fads — children look best in clothes designed for them, not adapted from high - style adult lines.

B. McCutcheon

Take measurements — but not small children—when you shop.

MEASUREMENTS YOU'LL NEED

Head size, taken at the level of an Indian headband, around forehead and the fullest part of the back of the head. Neck size, where a collar seam sits. Shoulder width, at back, shoulder tip to shoulder tip. Chest size, the largest measurement, taken just below the armpits. Waist size, with the child standing erect but relaxed. Arm length, shoulder tip to wrist. Hip size, largest measurement around the buttocks. Leg length, from inner hip joint to ankle. Hand size, around knuckles where they're biggest, and from wrist to middle-finger tip. Skirt length for girls, measure from waistline to desired hemline point above knee. Shoe size is the exception to the leave-the-children-home rule; shoes should always be fitted. But if you must buy shoes without the child, have him stand on paper, hold a pencil straight upand draw the outline of both feet (one may be larger than the other), and take the drawing to the store with you.

Until the new Canada Standard Size labels become general, take your own tape and check your child's size against every dimension of a garment. One misfit—for instance too small a neck—can make a garment unwearable. Clothes should be bought roomy enough to be comfortable on the wearer for a full season. You can expect a gain of one to two inches in height, two to four pounds in weight, in six months to a year.

WHAT'S A BARGAIN

Moderate-price clothing is likely your best buy in regular stock lines. Low prices usually mean poor wearing quality, high prices likely cover luxurious detailing and decoration.

Sales that often offer genuine bargains are clearances of discontinued lines and end-of-season stock (summer wear in July and August, winter garments in January and February). Manufacturer's off - season production clearances may be good buys, or they may include items that are of poorer quality than usual. Be extra thorough in examining any sale merchandise.

CHECKPOINTS FOR QUALITY

Seams should be about half an inch, at least, from stitching to the cut edge. Seams on play clothes, nightwear and underwear should be double stitched (check forcloseness of stitching—fifteen stitches to the inch, or closer, gives a sturdy seam). Pull on seams gently to make sure the thread isn't too tight. If the garment is shorter at the seam than elsewhere, the stitching is too tight and it will break easily. Stitching around buttonholes should be so close you cannot see the fabric between threads. Buttonhole stitching should be about one quarter inch on heavy clothes to no less than on eighth of an inch on cotton playthings. Sloppy-stitching—fabric folded back under a seam, for instance —is a sure sign of poor workmanship.

WHAT SIZES MEAN

Confusion on sizes begins with toddler clothes—infant layettes are usually well marked for age sizes are designed for diaper-wearing tots with round tummies. The toddler range is 1 to 3X. Next come children's sizes 2 to 6X. The toddler 2 will likely fit a husky fourteen month old baby; the child's 2 will fit a taller slimmer two year old.

Girls' and boys' sizes 7 to 14X are again slimmer in proportion, so that a girl who has grown too tall for a 6X may need the hem of a size 7 dress turned up.

Special sizes include "chubby" girls' or "husky" boys' from 7 to 14X. For older girls there are also such fittings as Subteens 8 to 15 and Teens 8 to 15 designed to keep up with girls' developing figures. Fortunately, girls taking any of these special sizes are old enough to go and have clothes tried on to assure a good fitting.

Cancer is the name given to the uncontrolled growth of body cells. Often this growth can be completely stopped—if caught in time. Fight cancer with a checkup and a cheque.

NOTICE TO PARENTS

Re Application for Admission to Grade I

In compliance with Section 177 of the School Act, the School Committee requires that entry to Grade 1 shall be confined to the commencement of the School Year and limited to pupils who will attain the full age of six years on or before October 31st.

Application forms have been submitted to the teachers for distribution. The School Committee therefore requests your co-operation to complete the form and return it to the teacher as soon as possible.

Should you not receive the form and if you have a child that will be of school age, please contact the teacher of the school and he or she will provide you with the necessary form.

Failure to register your child before May 31st may mean no accommodation available for him or her at school opening next September.

W. J. LESKIW,
Secretary-Treasurer,
County of Athabasca No. 12.

Owl River

Mr. and Mrs. John Skyrpan spent Easter Sunday at the home of his sister Katy, in Chipman.

Betty Cynthia, Rebecca Rose and Jimmy Sawchuk of Hylo spent a week visiting their grandparents here recently.

Dinner guests, Easter Sunday in the home of Mr. and Mrs. L. J. Diesel were Mrs. E. Brooks, Jerald Vershoose, Mr. Morin of Normandeau, Mrs. Rose Ray, Mr. and Mrs. L. T. Diesel and sons, Philip and Paul, Ralph Shaffer and Mr. and Mrs. Metro Skyrpan, Helen Fredrick and Larry. Their son, R. H. Diesel, was also present as he is home for the summer from Wainwright.

John Hovde and daughter Peggy visited some of their friends Easter Sunday.

The snow is almost gone in this vicinity and ice in the lakes is not safe to walk upon. The Owl River is open in spots and many ducks have arrived to nest there.

Kikino

Residents of this district who have been patients in the Lac la Biche Hospital are Mrs. Catherine Boucher, Fred Donald, Walter Thompson, Mrs. Francis Cardinal and Susie Erasmus.

Mr. and Mrs. Thomas Jackson and family of Goodfish Lake were weekend visitors at the home of Robin Thompson.

Mr. and Mrs. Leonard Calliou and family and Stanley Bearard of Edmonton spent the Easter holidays here.

Did you ever hear of a lady who had to bring her bread 60 miles to this village to have it baked? This was the experience of one lady about a week ago.

Mr. and Mrs. George Donald and baby of Edmonton were down for Easter at the home of J. N. Donald.

Jimmy Erasmus and Kenny Bellerose spent a few days in Edmonton last week.

Leona Thompson, who is attending school in Lac la Biche, is home for Easter holidays.

U.S., Reds Stockpiling Mind Poisons

If Albertans suddenly go to sleep, act nutty or carefree, you could blame it on gas—the kind the U.S. and Russia are now stockpiling. These psychochemical weapons or "mind poisons" are being perfected by these major powers, according to Associate Editor Sidney Katz in Maclean's.

"The psychochemicals confuse the enemy's mind and break his spirit rather than destroy his body," says one of the men responsible for developing them, Maj.Gen. Marshall Stubbs, chief of the U.S. Army Chemical Corps.

The least publicized of all secret weapons, the psychochemicals are colorless, odorless and tasteless. they can make men go temporarily crazy. They can paralyze the body, or worse, the will. They can make whole armies or cities quarrelsome, cowdardly, ecstatic, despondent or simply incapable.

"We have drugs," one general told a U.S. congressional committee, "that could set you congressmen dancing jigs on the desks or shouting communist speeches."

Katz points out that, despite the public's deep horror of anything resembling gas warfare, many generals and military scientists have already stated that the psychochemicals—in the age of the H-bomb—are really a "humane" way to fight a war.

It is impossible to determine accurately the scale of the research in psychochemicals, but it is known that this year alone the U.S. Army Chemical Corps is spending $84.1 million for research and development. This is twice its 1960 budget. And Maj.-Gen. Stubbs has revealed that the Corps is "investigating about 400 potential compounds a month, received from drug and pharmaceutical houses."

Helina

Visitors in Edmonton recently included Earl Whelen. Bill Suhan and Steve Onciul.

The monthly meeting of the Farmers' Union was held in Helina school on April 12. Guest speaker was Fred Strashock, the district agriculturist.

Leslie Knapp is employed in the building of the new high school in Loc la Biche.

Visitors at the home of Mr. and Mrs. Nick Keeper were Mr. and Mrs. Emil Bilodeau of Edmonton.

Audrey Bronson and Mrs. D. Onciul motored to Andrew and Ashmont over the weekend.

The average weight of the human brain is 48 ounces.

The food is delicious and the service is excellent

BUY RECOMMENDED HORTICULTURAL VARIETIES

Whether you are an amateur gardener, a home landscaper or an experienced horticulturist, the advice of F. J. Weir, Provincial Horticulturist, Manitoba Department of Agriculture, concerning the purchase of so-called special horticultural varieties offered by certain get-rich-quick nursery stock pedlars, is worthy of your attention.

DON'T WASTE YOUR MONEY

Mr. Weir's advice is timely. He warns gardeners and home-owners against "falling for" the fast sales talk and fancy advertising of unauthorized horticultural stock pedlars who will be at your door this spring offering fantastic buys of some new ornamental tree, shrub, flower bloom or vegetable seed. No matter how attractive these offers appear, don't bite! Avoid purchasing such shrubs, trees or seeds for your flower bed or vegetable garden, as they are likely to be useless when grown under your particular soil and climatic conditions. If you are in need of new ornamental shrubs, fruit trees, small fruit plants or seeds of flowers and vegetables, be sure and purchase them from one of the many registered nurseries or reputable seed houses in your province. Mr. Weir strongly advises prospective buyers to purchase only recommended species or varieties of nursery and garden stocks that are guaranteed adaptable to prairie conditions.

USE RECOMMENDED LISTS

Before ordering nursery and garden stocks this spring, gardeners and home landscapers should study the lists of recommended horticultural varieties which are published annually by their provincial Department of Agriculture. These lists are prepared in co-operation with provincial horticultural associations. They are free, and may be obtained from your local agricultural representative or District Agriculturist, or directly from the publications branch of your provincial Department of Agriculture (Winnipeg, Regina or Edmonton).

To avoid disappointment, order your nursery and garden stocks at once. If you want to save money, and obtain satisfaction, be sure and order them from a registered nursery or reputable seed house. Plant only recommended, adaptable, superior varieties of trees, ornamental shrubs, flowers and vegetables in 1962.

Lab Introduces New Techniques

In 1961 the Alberta Dairy Branch Laboratory introduced new tests for detecting antibiotics, watered milk and pesticide residues. According to Dr. V. W. Kadis, director of the Dairy Branch Laboratory, some of these tests were performed on raw and processed milk, while others involved fluid milk and other dairy products.

With the increasing public demand for better food standards, the dairy industry must keep on the alert to satisfy its customers. The main purpose of the Dairy Branch Laboratory is to assist the dairy industry in its attempt to produce the highest quality products and to ensure that these products meet provincial and federal standards. With this in mind, the dairy laboratory is constantly introducing new and advanced testing methods to facilitate an even more accurate evaluation of these products.

Dr. Kadis says all the present tests will be continued on an intensified scale in the future and it is hoped that this program will discourage anyone from accidentally or intentionally adulterating milk or any other dairy product.

MERRY MENAGERIE

"One consolation: We don't have to worry about rushing out and buying a bomb shelter!"

Population Not Represented

There is not legislature representation by population in Alberta and the rest of Canada Hon. Fred Colborne, minister without portfolio said in the Legislature last week.

Mr. Colborne is chairman of the Legislature's redistribution committee which recommended changes to 20 provincial constituencies.

In reply to some criticisms of the changes, Mr. Colborne said the committee did not strive to make changes to provide representation by population.

He said this is an ideal which doesn't exist in any Canadian province—nor in the federal constituency field.

"If Alberta is making a mockery of representation by population, then Canada also is making a mockery of it," he said.

Shipping Fodder To Farmers Costs Government $360,000

A.M. Wilson, provincial field crops commissioner, said recently the government has spent $360,000 this year shipping fodder to farmers who were left without cattle feed after last summer's drought.

About 1,500 farmers probably will receive provincial aid in obtaining livestock feed, he said. About 30,000 tons were shipped under the federal-provincial program from July to April.

Since then the two governments have shared the entire costs of shipping by rail, averaging about $32 per ton. The governments also paid 75 per cent of the costs of transporting fodder by truck.

The feed came from as far north as Athabasca and went almost entirely to the Medicine Hat and southeast area.

Southern livestock will probably not be able to graze until about May 10, said Mr. Wilson, but most farmers were aware of this and purchased sufficient fodder to last until then.

"AMERICA'S GREATEST REVIVALIST"

Space Age, Sex--Crusade Topics

Many Northern Alberta Residents Planning To Brings Friends Along

This serious problem called sex is one of the provocative sermon titles listed by Dr. Merv Rosell for delivery during the eight-day Greater Edmonton Evangelistic Crusade, starting tomorrow, April 29. The man who is described as America's greatest revivalist by Dr. Billy Graham, whose column appears weekly in Alberta Country Life, will talk on everything from "How to Live with Yourself" to what the Bible predicted about the space age.

The Crusade, which will open with a Sunday afternoon service in the Jubilee Auditorium at three o'clock and another at 7:30 p.m. on the some day, is sponsored by over 40 Edmonton churches. A 300 voice choir will be conducted at each of the 10 meetings by Hilding Halvarson, Seattle businessman and gospel recording star.

Organ music will be provided by Rev. T. Elgar Roberts and piano accompaniment by Miss Doreen Carse, both of Edmonton.

For residents of northern Alberta, planning to attend the Crusade meetings, a summary of sermon topics for Dr. Rosell's campaign, is printed below. Using these as a guide, out of town people will be able to select the nights that appeal to them, and arrange to bring their friends with them.

SUNDAY AFTERNOON

"Headline Hysteria" Is there any solution for the subconscious panic in so many human hearts? How can you find a solid foundation for faith?

SUNDAY NIGHT

Satellites, Salvation and Survival Is there life beyond this? What is the sure cure for "Hydrogen Hysteria" in this "Atom Balmy" age? Is there a security for you now?

MONDAY NIGHT

"How to Live With Yourself". Dr. Rosell summarizes his "Best Seller" Constructive answers to pressures, frustrations, phobias, fears, "nerves" and the daily difficulties of this "Rush Life."

TUESDAY NIGHT

"Questions People Dare to Ask" Answers to intimate problems of life. What are the future answers to life's most precious problems?

WEDNESDAY NIGHT

"Man Into Space". Was the first man into space a Russian or not? Is it possible for thousands of people to live permanently beyond our galaxy? Is Bible salvation scientific?

THURSDAY NIGHT

"Patterns for Positive Living". Actually see God's plan for living insurance in the one vital outline for security and sanity.

FRIDAY NIGHT

"Is Russia Our Greatest Fear?" Why do you react to news like you do and how can you conquer every fear? Hear this systematic and scriptual solution to your daily problems.

SATURDAY NIGHT

This Serious Problem Called "Sex" Dr. Rosell has addressed 100,000 Americans on this subject. Doctors, teachers, parents and pastors commend it. Sane answers on dating, waiting, mating and life's most urgent "drives".

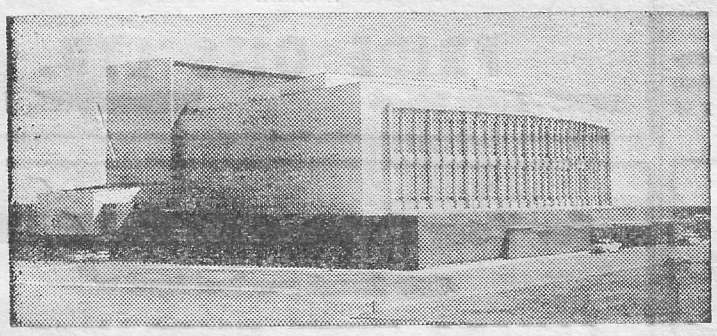
SUNDAY AFTERNOON

"God Pre-Writes the Headlines" Dr. Rosell systematically explains how the Bible predicted the space age and what will come after. Bring your Bible and a note book so that you can record the amazing prophetic promises that will garrison your heart and mind.

SUNDAY NIGHT

"How to Secure Your Home Against Tragedy" Dr. Rosell will present solid solutions to the problems of your home. Insurance against divorce, division and disaster. Vital answers for all ages. Faith for your future!

Drive carefully and avoid the sorrow that will come to you if you cripple a child for life.



JUBILEE AUDITORIUM will be the centre of the Greater Edmonton Evangelistic Crusade for 10 meetings starting Sunday, April 29 and running through until Sunday night, May 6. Guest evangelist is Dr. Merv Rosell of Montrose, California, who has addressed more than one million people in different countries during the past year. The public is invited to attend the meetings which are under the sponsorship of 40 Edmonton churches.

REV. T. ELGAR ROBERTS, staff evangelist for the Baptist Union of Western Canada, and well-known Edmonton preacher, will add to the musical portion of the Greater Edmonton Evangelistic Crusade by providing music at the organ. Piano accompaniment will be supplied by Miss Doreen Carse of Edmonton. Hilding Halvarson, Seattle businessman who puts "a sermon in each song" will lead a mass choir of 300 voices.

Ernest C. Manning Criticizes Revised Versions of the Bible

Revised versions of the Bible, including the Revised Standard Version, were strongly criticized by Rev. Ernest C. Manning, Alberta's premier, during his Easter Sunday national radio broadcast.

Mr. Manning told listeners new revisions of the Bible destroy the meaning of God's word and make Christianity an easier faith to follow.

The Revised Standard, Manning intoned, results in modernization of God's Word to the point where the original intent is lost.

Even the Ten Commandments are altered to make it easier for modern Christians to follow them.

The premier said the King James version of The Bible contained God's True Word and should not be defiled (or defied).

He questioned "the right" of any man to play with the Word of God and alter it. The original Word, as it appears in the King James Bible was blessed by God Himself and should remain untouched.

Manning was preaching from the stage of the Paramount Theatre in downtown Edmonton.

The Bible Today

The Palm Sunday story related in the Bible in Matthew, Chapter 21, Verses 1 to 10; Mark, Chapter 11, Verses 1 to 11 and Luke, Chapter 20, Verses 28 to 42, with its heavenly message, "Blessed is he that cometh in the name of the Lord, Hosanna in the Highest," is one of the best known and most loved in all of Scripture. In many countries of the world, re-enactments of Christ's triumphal ride into Jerusalem are conducted with the solemn ceremony of the distribution of portions of Palm branches.

Interesting reports are received from time to time telling how people who read the Gospels for the first time in their own tongue can quickly understand the significance of this story. This is evidence of how the Bible speaks to the untutored minds of simple people and reveals to them a message from God, through the words of the Scriptures. Dr. A. E. Inbanathan, General Secretary of the Bible Society of India and Ceylon, reinforced this point when he said recently "In a world of racial and international tensions and threats of nuclear warfare, it is needful to let the Word speak, and speak for itself to man in his puzzlement and confusion, of forgiveness, community and peace."

Training School Move Planned

The Baptist Leadership Training School in Calgary is scheduled to move into a new $210,000 building by early fall. The 1962-63 term will begin on Oct. 9.

The need for a well-planned, modern campus has grown with the popularity of the Christian education program promoted by the Baptist Union of Western Canada.

A sod-turning ceremony at the construction site, 4330-16th St. W., officially launched the project.

A cornerstone laying is planned for Sunday, July 8 at 3 p.m. The speaker will be Rev. G. M. Ward of Regina president of the Baptist Federation of Canada.

The new school will be a two-story, T-shaped building. A chapel, dining room and student lounge are planned as part of the main building, in addition to library, music, classroom and administration facilities. The dormitory wing, with double rooms, will have accommodation for 48 students.

Part of the two acre lot will be developed for outdoor recreation such as skating and volley ball.

An optimist is very often one who does not have the bill to pay.

MY ANSWER by Billy Graham

Question: I am a salesman and my work frequently takes me away from home for weeks at a time. It has been this way for years, and I find myself frustrated that I have little time with my family and little home life. I am a Christian, and I want to do what is right. I wonder if you could give me any advice?

Answer: I can sympathize with you for my work takes me away from my family a great deal of the time. I could possibly answer you by sharing my feelings about my own situation.

First, long periods away from home are painful and could be tragic if I were not sure that God had put me in this place of service. No one could drag me away from my family unless I were sure that God had called me to my task of world evangelism. I could not possibly think of any monetary motive that would take me away from home so much of the time. Secondly, my wife and I are deeply in love and have a perfect understanding. Each return home is like a honeymoon, and I think in your case much depends on the capacity of your wife to endure your long and extended absences.

Then, again, theer is the need of children for a father. This is the one point that concerns me in my own situation, and I pray much about it. If you have children and your wife is unhappy at your absence, and if you can find work that will allow you to be at home, then I would consider it, if I were you.

1962 Baptist Assembly Is Slated For Calgary

Plans are under way for the Baptist Union of Western Canada churches in the city to welcome approximately 500 delegates and their families from coast to coast to Calgary for the '62 Baptist Federation Assembly to be held at The First Baptist Church, July 5 to 8.

This will be the sixth assembly since the federation was formed in 1903 to develop a sense of unity and fellowship throughout Canada, and give Baptist witness.

Prime Minister Diefenbaker will be the special speaker of the closing session scheduled for Sunday, July 8.

Because of the close proximity of the annual Calgary Stampede, most visitors are expected to stop over for this event and also take in the many sights of interest in the foothills area before returning to their home cities at the close of the assembly.

Dr. C. Howard Bentall, a past president of the federation, will be the host pastor representing all of the local churches and their ministers.

The theme chosen for the '62 assembly is "The World Mission of the Church."

Lloydminster Man Re-elected Alta. Chiropractic Association Prexy

RED DEER — Election of officers and an address by Dr. R. N. Thompson, president of the Canadian Memorial Chiropractic College, Toronto, and National Social Credit leader, highlighted the two-day annual meeting of the Alberta Chiropractic Association, April 13-14 at the Capri Motor Hotel, Red Deer.

Some 100 of the province's 138 practising chiropractors attended the meetings to elect Dr. O. C. Berg, Lloydminster to his third term as president of the association. Other officers elected were:

Dr. Wilfred Foord, Red Deer, vice-president; Dr. J. C. Speelman, Lethbridge, by acclamation to his third term as secretary-treasurer; Dr. W. C. Thompson, Calgary, past-president Canadian Chiropractic Association, council member; Dr. Lou Heard, MLA, Edmonton, representative to the CCA; Dr. R. J. McHan, Calgary, council member; Dr. L. F. Schnell, Calgary, council member.

DR. THOMPSON SPEAKS

Dr. Thompson, the National Social Credit leader, took a break from campaign activity in the coming general election to speak on the importance of intensive educational activity in the chiropractic field.

RESOLUTIONS

In dealing with nummerous resolutions, the conference reaffirmed "the very excellent relationship the ACA has enjoyed with the Workmen's Compensation Board in the care of industrial injuries."

Dr. L. W. Heard, MLA, executive-secretary of the Chiropractic Services Fund which covers all pensions in the province, reported to the convention the excellent co-operation of all chiropractors in this new service to the pensioners of Alberta. It was reported that "pensioners were extremely elated by the opportunity to attend the doctor of their choice."

It was unanimously agreed that the ACA wholeheartedly endorse the national emphasis placed recently on physical fitness and its relationship to good health. A committee was formed to further study the part the chiropratic profession can play in this Canada-wide program.

The convention was informed that the chiropractic story would be presented to the Royal Commission on Health in Toronto during the week of May 7-14. A report was submitted on the brief that will be presented.

"The chiropractic profession as a whole is greatly encouraged by the interest being shown by students of high schools in Alberta in choosing chiropractic as a profession," the convention reported.

During High School Career Week, doctors of chiropractic were asked to visit the schools to outline the advantages of a professional career for young men and women in this growing profession.

"Vigorous discussion and full attendance at every session has highlighted this conference; and I feel that overall it has reflected the growing strength of our profession in Alberta," said Dr. Berg in summarizing the success of the two-day meeting.

Amethyst gems get their name from two Greek words meaning "not to be drunk" because ancient Greeks believed the stone would keep the wearer sober.

Forty-mile-per-hour U-turns are claimed for his car by Frank Thomas of Calgary, who designed and built the modernistic vehicle. It includes an electrically-operated canopy, automatic transmission, retractable headlights and dual carburetors.

B.C. Economist Heads Group

Dennis W. Ware, 37, has been appointed head of the commodities unit of the Economics Division, Canada Department of Agriculture. His new duties include supervision of the department's markets information section.

Born at Courtnay, British Columbia, Mr. Ware attended the University of British Columbia, where he received his B.S.A. degree in 1949 and his M.S.A. in 1952. He also studied towards his Ph.D. degree at Ohio State University from 1958 to 1960.

Ware first joined the department in 1948, working as a student assistant in the Economics Division's Vancouver office. He was assigned to Ottawa in 1953, where he was associated with the commodities unit as a fruit and vegetable specialist. Returning from Ohio State, he was appointed head of the prices and statistics unit, a post he held until his latest promotion.

Economist Ware succeeds Morris Rachlis, who is now with the Tariff Board at Ottawa.

Forest Towers Now Being Manne

CHARLIE CHAMBERLAIN, vocalist on Don Messer's Jubilee on the CBC-TV network and on the Don Messer Show on the CBC Trans-Canada radio network, takes a look at himself. At left is the Charlie Chamberlain of 25 years ago, three years after he joined the Messer group, and right, as he appears today. Chamberlain started his professional career in 1934, after having proved himself a versatile entertainer among his fellow workers in the New Brunswick woods where he was a lumberjack.

Baboon Shot At Airport

LONDON — A big baboon being flown to the United States broke out of its cage at London Airport but was shot and killed by police.

The airport resembled an armed camp during the search for the hulking male ape, powerful enough to "tear a man to bit," according to one police officer.

The baboon was tracked down in a nearby grass field. Airport officials said it had to be shot because "it was too dangerous — it could not be recaptured safely."

British United Airlines and Seaboard World Airlines said the baboon was one of a large group being shipped from Kenya to New York, possibly for use in health or space research.

All For A Pizza

Pizza pies are popular in Canada, too. In an Oakville shop window the pizza made a shopper's taste buds quiver with happy expectation. Hastily he purchased it, put it on the front seat of his car, and started for home.

But like many another hasty purchase, there was more involved than the original price of the pie. On the way home the pizza started to slide off the seat. The motorist made a grab for it. His car careened into another car parked nearby.

Damage to the parked car was $400. And that was not all. The woeful motorist also had to pay a fine of $45 for careless driving.

Booklet On Bulbs Now Available

"Flowering Bulbs for Canadian Gardens," prepared by the Canada Department of Agriculture, Ottawa, is now available to Albertans. The use of bulbs in landscaping and information on growing, harvesting and storing garden bulbs are among the many topics covered in this booklet, which can be obtained from District Agriculturists and from the Extension Service of the Alberta Department of Agriculture in Edmonton.

WEEKLY GRAIN MARKET LETTER

By James Richardson and Sons, Limited
Grain Merchants, Winnipeg 2, Canada.

The time of year has now arrived when increasing attention is being paid to new crop prospects. In Western Canada we are starting off the season with low moisture reserves as a result of last year's drought which cut crop production in half. The winter snow has melted over large areas of Saskatchewan and Alberta and some new snow has been received which will add to the available moisture surface moisture, but conditions are still dry over pratically all the Prairies and good moisture will be needed throughout the growing season to produce an average crop. The weather has been unseasonably cold this spring and farm work has been delayed with wheat seeding not expected to start before the first of May except in isolated high areas. In the spring wheat areas of the United States, moisture supplies are sufficient to start the season in the eastern districts but it is quite dry in the western Dakotas and Montana. Winter wheat production in the United States was estimated this week at 921.2 million bushels, 155 million bushels less than last year. This is a result of a reduction in acreage and the dry weather in parts of the American Southwest. In the central areas, seeding, especially of oats, has been delayed by cold, wet weather.

Crop advices from Europe have been rather pessimistic this past week with reports of damage to winter crops of wheat, rye and barley being received. There have been no official announcements as to the extent of the damage but private reports place it at 20 to 30%. Rains last week delayed spring seeding but latest advices indicate the weather has turned more favourable. In the Argentine, rainfall has delayed the corn harvest but has improved the soil condition for the seeding of small grains which will start shortly. Reports from India remain optimistic regarding wheat and flaxseed production. Very little has been heard so far as to crop conditions in the Iron Curtain countries.

In Canadian grain export circles most of the activity was in wheat. The German government issued a tender for 100,000 tons, most of which had already been prepurchased by German merchants. Japan reentered the Canadian wheat market after an absence of several weeks and purchased 80,000 tons. There was an improved demand for wheat for shipment from the northern port of Churchill and several cargoes were sold. In addition to this, there was a steady demand for parcels from both the United Kingdom and the Continent. Overseas shipments continue in satisfactory volume but the strike of St. Lawrence River pilots is delaying both the arrival and departure of a number of ships in that area. The improved demand for barley from the United Kingdom continues but sales were in smaller volume than last week. Prices in the United Kingdom moved into new high ground but there was a comparable advance in our market. The visible supply of barley in Canada continues to decrease and now totals 36.6 million bushels, 20 million bushels smaller than last year. The export demand for flaxseed was quiet this week but France, the United Kingdom and Japan again made small purchases.

The futures market at Winnipeg continues active with barley advancing because of the improved export demand and small available supplies. Flax was very active with the nearby contract advancing sharply late last week due to apparent congestion in the May future, and then declining quickly in sympathy with a sharp break in linoil prices overseas because of the unsettled monetary situation in the Argentine. The trade was quite large with some of the selling coming from elevator companies who were hedging increased purchases from producers. Also there was liquidation from commission houses with the best support coming from exporters and American accounts who were covering short sales. Oat prices were steady in sympathy with barley while rye prices advanced on moderate short covering and small supplies.

Recreation Leadership School Scheduled For Camrose In July

Camrose will be the site of the 1962 Recreation Leadership School sponsored by the recreation and cultural development branch of the Alberta department of the provincial secretary. The school, scheduled for July 9 to Aug. 4, will move from Red Deer where it has been held since 1946 due to the removal of facilities in that city.

Facilities to be used at Camrose include the Camrose Lutheran College, which will provide dormitory accommodation, and the Junior High School where classes will be held.

The Recreation Leadership School provides the opportunity to develop recreational skills and leadership training. Candidates to the school are accepted from all communities on the basis of nomination by the local municipal council or recreation board. A Grade XI educational standard is required. Students attending the first or second year general course will pay a $40 fee which includes the cost of training plus room and board at Camrose.

Some shorter special courses will also be offered this year. Such subjects as ceramics, archery, tennis, public speaking and batik will be offered as specialties to interested craftsmen. One and two week course fees are scaled at $15 and $25 respectively.

Final date for application to the Recreation Leadership School has been set at May 1. Individuals or community organizations interested in taking part in the training program should contact the Supervisor of Community Program, Room 424, Legislative Building, Edmonton.
